There are at least ten thousands of singing people of all age groups in the Czech Republic, most of all with secondary or university education. Most of them are connected to at least one of our communication channels which we use to spread information into the choral world.

Do you offer services in the sphere of hiring, repairing or tuning of musical instruments, accommodation or health provision? **Do you sell** music or musical instruments? **Do you provide** translation activities, agency services, art works?

Choirs and their members are often consumers of these and other products. **Try to address them with us.**

The Czech Choirs Association (Unie českých pěveckých sborů) is the national umbrella organization for choral singing, the only one of its kind in the Czech Republic.

We offer advertising in printed and electronic media, but also within festivals, concerts and other cultural activities..
